Gifts Of Mother Earth: Earth Energies, Vortexes, Lines, And Grids

Synopsis

We live in a sea of energies that are part of the earth we live on. Most people are not aware of these energies or that they hold many gifts. These gifts help us to heal, balance, expand consciousness (awareness), and support spiritual evolution. Our ancestors knew the gifts of Mother Earth and used these energies to support their lives and spirituality in many ways. We, modern humans, have mostly forgotten that these energies exist. This book helps us to remember these gifts provided by Mother Earth and offers us support for balance, health, expanding awareness, and personal and collective spiritual evolution. It helps us to understand that all tools to live a life of joy, happiness, love, and abundance are permanently available to us. Join the author on a powerful journey of discovery, remembering and reconnecting.

Customer Reviews

If you are interested in the subject of what is known as subtle energy - meaning what might be called "spiritual energy" that is outside the electro-magnetic spectrum that modern traditional science recognizes as energy - this is an eye-opening book. Van Etten, the developer of what he terms metaphysical ecology, is an exceptionally gifted, thoughtful and comprehensive thinker. He not only reviews the entire field of what has been discovered and written on this subject, but also has done (with his wife Jeanne Michaels) an amazing amount of personal, profound and original research throughout the world on this critical, but vastly under-appreciated subject. Covering the subtle energy of the human body (meridians and chakras), of the Earth herself, of animals such as

whales and dolphins, of possible historical civilizations (Atlantis and Lemuria), and of the consciousness and gateways that surround the planet and connect us to Universal Energy, Van Etten's book opens vistas for us that no other book has yet done. A ground-breaking, fascinating and unique work. (Written by Kenneth Porter, M.D.)

Very helpful, as we conducted the World Wide Water Ceremony, July 17th, when we worked on the grid lines and earth energies of the Hawaiian Islands. He is masterful in his understanding of the the earth energies.

I do indeed recommend this book, even though one must know that the search for, and the mapping of earth energy lines, are very tricky. Two people very seldom get the same results since mother earth do give you what you ask for! The intentions and questions of different people can and never will be the exact same!

Fascinating exploration of the metaphysics of our world.
