Illinois Birds: A Folding Pocket Guide To Familiar Species (Pocket Naturalist Guide Series)

Synopsis

The Prairie State's diverse habitats are the permanent or migratory home of 440 species of birds, including the state bird – the northern cardinal. This beautifully illustrated guide highlights over 140 familiar and unique species and includes an ecoregion map featuring prominent bird-viewing areas. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike. Made in the USA.

Customer Reviews

Great quick reference bird guide so my mother in law doesn't have to flip through pages and pages of information. Love that it's laminated to protect it from spills when she gets over exuberant in her bird findings;)

This is not what I thought it was going to be. I thought I was getting a booklet. This looks like something you picked up at an IDOT rest area, laminated and charged me \$7.00 for. I feel as if I have been ripped off.

I would have gave this five stars if the pictures of each bird were not drawings but actual pictures of them. But over all it still works to identify birds in the area.

This is one of many of these products I have purchased. They are easy to hike with and very complete for the limited printing area. They have many flora, birding, and nature ones available!
