New Hampshire Birds: A Folding Pocket Guide To Familiar Species (Pocket Naturalist Guide Series)

Synopsis

The Granite state is the permanent or migratory home of 399 species of birds, including the state bird – the purple finch. This beautifully illustrated guide highlights over 140 familiar and unique species and includes an ecoregion map featuring prominent bird-viewing areas. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike. Made in the USA.

Customer Reviews

I purchased this to have a quick reference for birds outside my window at the feeder. It's a great quick reference card and nothing more. The pictures are decent drawings not detailed and the information on the card is interesting although it offers only a few extra details about a few of the birds. The measurements are helpful. Good to have at your window for quick reference.

I travel and am a birder. I also photograph. When I see a bird, I photograph the bird and before adding it to what we call "life lists", I want to be 100% sure what bird I saw. This Guide is excellent. I collect them. We are going to New Hampshire in October and I am ready for the fun of travel, birding and photos!

Very handy! A nice light-weight reference to carry in your backpack, car or purse. The plastic

coating can withstand moisture & will easily wipe clean.

My grandchildren enjoyed sitting on the deck identifying local birds in central New Hampshire. Easy to use and manipulate for small hands.

This reference card is great, is laminated so won't tear or get ruined if it gets wet. Easy to use and carry. Quick and easy identification of birds when you're out on a trail. I love this little guide!
