# Wisconsin Birds: A Folding Pocket Guide To Familiar Species (Pocket Naturalist Guide Series)

Synopsis

Wisconsin is the permanent or temporary home of 432 species of birds, including the state bird – the American Robin. This beautifully illustrated guide highlights over 140 familiar and unique species and includes an ecoregion map featuring prominent bird-viewing areas. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike. Made in the USA.

Customer Reviews

We purchased this for our 95 year old Mother. She sits by her window and uses this to help her identify all of the birds that she sees. She LOVES this!! And, SHE IS VERY PICKY!!

My grandson (12yrs) has become very interested in identifying birds since he loves helping me keep my feeders filled. I bought this for him to use at his home to help him name the birds now coming to his feeders. A very convenient guide to locate and identify. I'd recommend this for anyone wanting to name the birds.

Bought it when I moved to Wisconsin and always use it. We take it when we go camping or nature walks. It's a laminated fold open booklet so it fits anywhere.

Not worth the price. I thought it would have more birds, more information or something but it is handy if you want to put it in your pocket and take it with you. It takes up very little space.
