## Customer Reviews

Everything about it sucks. Can only be shared on two devices which limits its usability. Its study tools features are pedestrian and very limited. I really wish I purchased the hardcover version. I was forced to purchase two in order to use on all of my devices.

Such an informative book to help prepare future officers on the mundane tasks associated with the responsibilities of fire leadership.

Made with cheap thread and very thin.

Really enjoyed this read

Came in good condition.
