## Customer Reviews

Tumbleweeds is a great read, the story of a ranch in Texas and a woman who marries and moves there. The drama that takes place between the men and the women on the Circle Z ranch includes the birth of grandbabies for Mother Allena and the stories of the women her sons marry. Particularly, the book focuses on Mary Lou Mackey and her marriage to Tom Langdon. She leaves Kansas to live with her new husband and share his life in Texas among his family members. All four novels in the book flow right into each other, so the book is almost like one novel - a good thing if you enjoy reading Barbour Inspirational Romances as much as I do! You won't regret finding this little known book - the characters are memorable and created with passion. Have a great time reading it! - Deborah Smith Embree in Nashville...
