Oh No! We're Gonna Die Too: More Humorous Tales Of Close Calls In Alaska's Wilderness

Synopsis

Bob Bell's lived a long and colorful life, but there were times when it looked like it might be cut short. Join Bob, his eccentric group of friends, and his long-suffering family as he tells the tales of how Alaska's weather, geography, and wildlife all tried to kill him and other people.

Customer Reviews

The title of this book, with its "too" where "two" could have been, is a good introduction to the types of stories within its pages. While the original book was very good with various humorous stories of how the author nearly got himself killed in Alaska, this book focuses on other people. It is still quite entertaining, even for someone who doesn't hunt or fish, and doesn't live in Alaska, but feels a little more reserved, and therefore slightly less humorous than the other book. People who have at least visited Alaska's non-urban areas should find this book to be at least mildly entertaining, and hunters/fishermen/aviators should find it even better.

if you read Bob Bell's first book then you have to read this. Wasn't quite as funny as the first volume but still entertaining. Suspect the difference is because Bell tells mostly of others' adventures in this work.

This was a great follow-up book. The storys were just as funny as the first book and delivered with the humor that truly draws you in. I would recommend this book to any outdoorsy type especially if you are also a pilot!!

There was nothing about this book I didn't like. It was not a heavy read, it had some mild suspense. It made me laugh out loud and be amazed at the bravery(stupidity) of some of these humans.
