I Shall Wear Midnight (Tiffany Aching)

Synopsis

The fourth in a series of Discworld novels starring the young witch Tiffany Aching. As the witch of the Chalk, Tiffany Aching performs the distinctly unglamorous work of caring for the needy. But someoneâor somethingâis inciting fear, generating dark thoughts and angry murmurs against witches. Tiffany must find the source of unrest and defeat the evil at its root. Aided by the tiny-but-tough Wee Free Men, Tiffany faces a dire challenge, for if she falls, the whole Chalk falls with her. . . .

Customer Reviews

Tiffany Aching is facing an insidious evil; "poison goes where poison is welcome". Not a literal poison, but a poison of souls that causes the people who need witches to question, misinterpret, and attack people like Tiffany. Tiffany spends her days helping people, she goes to "feed them as is hungry, clothe them as is naked, and speak up for them as has no voices". What comes for her is blind and hateful. To add to this, the Baron is dying, his son is under the spell of someone other than Tiffany, Tiffany has to face the bane of witches throughout the ages, the other witches are watching and judging her, and, worst luck, the Nac Mac Feegle are ready help her again. Along the way, she meets the genius behind Boffo, a skeleton that is much happier with a teddy bear than without, a young woman with a unique gift for languages, and Roland's (the son of the dying baron) fianc e and her mother, the Duchess. Dark, with humorous highlights. Sir Terry Pratchett addresses the worst aspect of the human soul; petty and willfully ignorant hatred for those to whom you are

indebted. Someone spends their days healing and giving to others, so, of course, the human reaction is sullen rage and resentment. At the same time, the Nac Mac Feegle are in fine form. Jeannie, the Kelda of the Wee Free Men is growing into her role as their matriarch (and mother to most) of the clan. Rob Anybody has apparently mastered the hiddlins (secrets) of the explaining, the heart of being husband to the Kelda, but truly lets forth his rage before the tale is told. And of course, there is always Daft Willie and his pal, Horace the cheese.

This is the latest entry in Pratchett's four-book sub-series about a young witch, Tiffany Aching, as she grows up and learns, appropriately enough for her trade, to be a wise woman. (There are upwards of thirty or forty "Discworld" books total, which cluster into subgroups around individual characters). While you could certainly start here if you wanted to, new readers might find it more rewarding to begin with *The Wee Free Men*, the first in Tiffany's sub-series, followed by *A Hat Full of Sky* and then *Wintersmith*, before proceeding to this one. This is billed as a children's / young adult book, although little sets it apart from Pratchett's other fantasy except for some (very) slight bowdlerizations; primarily, this is a young adult book because the heroine is a young adult, and it deals with issues that young adults have to deal with. Like the Harry Potter books, the content and tone of the Tiffany series have been maturing ever so slightly with each book to match the advancing maturity of the protagonist, and while this one's still suitable for younger readers, it definitely contains a few jokes likely to fly over their heads (at least unless some other source has educated them).

Tiffany Aching is the witch of Chalk, which means that she has to do all the messy rural stuff that witches do. But witches aren't always as appreciated as they should be, and Terry Pratchett's "*I Shall Wear Midnight*" flings the sensible young girl -- and the Nac Mac Feegles -- against a threat that really, really doesn't like witches. Tiffany is doing the usual witchy rounds in Chalk -- nursing the sick, burying the dead, watching cheese races, and rescuing the occasional girl from an abusive father. Then the local Duke expires after a long illness, and it's up to Tiffany to tell his son Roland and his "watercolour-painting wife-to-be" about what happened. The problem is, she's being stalked by a creepy eyeless man with a vile psychic stench, who is inspiring people to hate and distrust witches. Suddenly stones are being thrown, accusations are being made, and Tiffany even finds herself in the Ankh-Morpork jail. And if Tiffany doesn't find a way to stop the Cunning Man, things will get very toasty for the witches... Due to having Alzheimer's disease, Terry Pratchett had to dictate "*I Shall Wear Midnight*" instead of the usual computer typing. As a result, the book's

beginning is very rambly and scattered, as if Pratchett hadn't fully thought out how the plot was going to go -- but after the Duke's death, things start to tighten up and move faster. And Pratchett hasn't lost any of his delicious wit, whether it's poking fun at cliches (the cackle box!) or sharp dialogue ("Have you boys got no shame?
